

MASENO UNIVERSITY

UNIVERSITY EXAMINATIONS 2017/2018

FIRST YEAR FIRST SEMESTER EXAMINATIONS FOR THE DEGREE OF BACHELOR OF EDUCATION WITH INFORMATION TECHNOLOGY

CITY CAMPUS – SCHOOL BASED

NGE 101: INTRODUCTION TO GEOGRAPHY

Date: 29th November, 2017

Time: 11.00 - 1.00 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should be used whenever appropriate

NGE 101 INTRODUCTION TO GEOGRAPHY

- 1 Write explanatory notes on the following:
 - a) Scope of geography (10 marks)
 - b) Species distribution in the ecosphere (10 marks)
 - c) Natural causes of desertification (10 marks)
2. Describe the atmospheric structure. (20 marks)
3. Examine the impact of humans on the natural ecosystems. (20 marks)
4. Discuss any five (5) consequences of urbanization on the physical environment in Kenya. (20 marks)
5. Discuss the current food crisis in Kenya and suggest possible solutions. (8 marks)
6. Examine the impact of population growth on the economies of developing countries. (20 marks)

MASENO UNIVERSITY

UNIVERSITY EXAMINATIONS 2017/2018

**FIRST YEAR FIRST SEMESTER EXAMINATION FOR
THE DEGREE OF BACHELOR OF SCIENCE (GEOGRAPHY
AND NATURAL RESOURCES MANAGEMENT AND BACHELOR
OF EDUCATION WITH INFORMATION TECHNOLOGY**

MAIN CAMPUS

NGE 101: INTRODUCTION TO GEOGRAPHY

Date 19th February, 2018

Time: 12.00 - 3.00pm

INSTRUCTIONS:

- Answer Question ONE and any other TWO
- Sketch maps and diagrams should be used whenever appropriate

NGE 101 INTRODUCTION TO GEOGRAPHY

1.
 - a) Describe the nature of geography as a discipline. (10 marks)
 - b) Account for the variations of the atmospheric temperature. (10 marks)
 - c) Explain the Ecosystem concept. (4 marks)
 - d) Explain any two (2) consequences of rapid urbanization. (6 marks)
2. Define geography and discuss its traditions. (20 marks)
3. "The discipline of geography forms an interdisciplinary bridge between the physical and social worlds". Discuss. (20 marks)
4. "The Earth's atmosphere is in perpetual motion". Discuss. (20 marks)
5. Citing specific examples, explain how any four (4) human activities have affected the natural ecosystems. (20 marks)
6.
 - a) Examine any two (2) anthropogenic causes of desertification. (8 marks)
 - b) Explain four (4) facets of food security. (12 marks)

MASENO UNIVERSITY

UNIVERSITY EXAMINATIONS 2017/2018

**FIRST YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF EDUCATION WITH
INFORMATION TECHNOLOGY**

CITY CAMPUS – SCHOOL BASED

NGE 102: MAP INTERPRETATION

Date: 1st December, 2017

Time: 11.00 - 1.00 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should be used whenever appropriate

NGE 102 MAP INTERPRETATION

- 1 Use the map extract of Busia Scale 1:50,000 Sheet 101/1 Series Y731 to answer the questions that follow.
 - a) Comment on the relief of the area covered by the map. (4 marks)
 - b) Explain any two (2) environmental problems in the map. (4 marks)
 - c) Identify the dominant type of settlement pattern in the area and account for its occurrence. (4 marks)
 - d) Draw a cross section between grid reference 254327 and 270318. (6 marks)
 - e) Explain any three (3) economic activities in the area shown. (6 marks)
 - f) State and explain direction of flow of the main river. (4 marks)
 - g) State the full extent of the area covered by the map. (2marks)
2. Discuss the relevance of sampling in geography. (20 marks)
3. Critique the methods of relief representation on topographical maps. (20 marks)
4. Explain network analysis and discuss its significance in geography. (20 marks)
5. Discuss the role of maps in socio-economic development. (20 marks)
6. Write short notes on the following:
 - a) Thematic Maps (5 marks)
 - b) Small Scale Map (5 marks)
 - c) Connectivity Matrix (5 marks)
 - d) Drainage Density (5 marks)

MASENO UNIVERSITY

UNIVERSITY EXAMINATIONS 2017/2018

**FIRST YEAR FIRST SEMESTER EXAMINATION FOR
THE DEGREE OF BACHELOR OF SCIENCE (GEOGRAPHY
AND NATURAL RESOURCES MANAGEMENT AND BACHELOR
OF EDUCATION WITH INFORMATION TECHNOLOGY**

MAIN CAMPUS

NGE 102: MAP INTERPRETATION

Date 20th February, 2018

Time: 8.30 - 11.30am

INSTRUCTIONS:

- Answer Question ONE and any other TWO
- Sketch maps and diagrams should be used whenever appropriate

NGE 102 MAP INTERPRETATION

1 Use the map extract of Kapsabet Scale 1:50,000 Sheet 103/3 to answer the questions that follow.

- a) Calculate the magnetic declination of the map. (2 marks)
 - b) Determine the bearing of Cheribisi School from Siwo School. (2 marks)
 - c) Citing evidence from the map, explain the influence of relief on settlement pattern in the area. (10 marks)
 - d) Using a scale of 1cm representing 20m, draw a cross-section along Northing 10 between Easting 29 and 35. Mark and name the features. (8 marks)
 - (i) A river
 - (ii) Vegetation
 - (iii) Transport networks
 - (iv) Boundary
 - e) Determine the vertical exaggeration and intervisibility of the cross-section in (d) above. (3 marks)
 - f) Describe the drainage of the area covered by the map. (5 marks)
2. Compare the role of Topographical and Thematic maps. (20 marks)
3. Examine the various methods used in representing relief on topographical maps. (20 marks)
4. Discuss the relevance of sampling in geography. (20 marks)
5. Discuss the significance of marginal information on a map. (20 marks)
6. Critique the use remote sensing as a technique of data collection. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**FIRST YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF SCIENCE IN GEOGRAPHY AND
NATURAL RESOURCES MANAGEMENT WITH INFORMATION
TECHNOLOGY**

MAIN CAMPUS

**NGE 103: INTRODUCTION TO NATURAL RESOURCES
PLANNING**

Date: 15th February, 2018

Time: 8.30 - 11.30 am

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should used whenever appropriate

NGE 103 INTRODUCTION TO NATURAL RESOURCES PLANNING

1. a) Define the term planning and explain the importance of natural resources planning in development process. (10 marks)
b) Explain why the environment is an important component of planning. (5 marks)
c) Examine the classifications of planning data and information. (15 marks)
2. Compare the characteristics of town planning during the classical era and industrial era. (20 marks)
3. Explain the three (3) elements that constitute a planning region. (20 marks)
4. a) Explain why activities in urban designs need to be sustainable. (10 marks)
b) Discuss the "Systems View" in planning. (20 marks)
5. Justify the need for community participation in the planning process in Africa. (20 marks)
6. Examine the nature of institutional and regulatory frameworks for planning in sub-Saharan Africa. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**SECOND YEAR/ FIRST SEMESTER EXAMINATION FOR
THE DEGREE OF BACHELOR OF SCIENCE (GEOGRAPHY
AND NATURAL RESOURCES MANAGEMENT AND BACHELOR
OF EDUCATION WITH INFORMATION TECHNOLOGY**

MAIN CAMPUS

NGE 201: GEOGRAPHIC THOUGHT

Date 22nd February, 2018

Time: 12.00 - 3.00pm

INSTRUCTIONS:

- Answer Question ONE and any other TWO
- Sketch maps and diagrams should be used whenever appropriate

NGE 201 GEOGRAPHIC THOUGHT

1. a) Explain the various phases in the development of geography as a science. (20 marks)
b) Explain any five (5) reactions to quantitative revolution. (10 marks)
2. Discuss the nature and scope of geography. (20 marks)
3. Explain the concept of "New Geography" as postulated by Karl Ritter and Alexander Von Humboldt. (20 marks)
4. Explain Charles Darwin's theory of evolution and its influence to the development of geography. (20 marks)
5. Discuss the contributions of the following to the discipline of geography.
 - a) Ellen Churchil Semple (5 marks)
 - b) Aristotle (5 marks)
 - c) Strabo (5 marks)
 - d) Paul Vidal de Lablache (5 marks)
6. Discuss the role of geography in addressing current global environmental concerns. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**SECOND YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF SCIENCE IN GEOGRAPHY AND
NATURAL RESOURCES MANAGEMENT WITH INFORMATION
TECHNOLOGY**

MAIN CAMPUS

NGE 202: CLIMATOLOGY

Date: 15th February, 2018

Time: 12.00 - 3.00 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should used whenever appropriate

NGE 202 CLIMATOLOGY

1. a) Describe the vertical structure of the atmosphere. (10 marks)
b) Explain the role of the atmospheric components in determining weather and climate. (20 marks)
2. Examine the significance of the hydrological cycle to weather and climate. (20 marks)
3. Account for the atmospheric energy budget. (20 marks)
4. Explain the role of the planetary winds in regulating global temperature. (20 marks)
5. Discuss the impact of the recent Hurricane Irma along the Carribean Coast. (20 marks)
6. Discuss the evidences of the current climate change. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**SECOND YEAR FIRST SEMESTER EXAMINATION FOR
THE DEGREE OF BACHELOR OF SCIENCE (GEOGRAPHY
AND NATURAL RESOURCES MANAGEMENT AND BACHELOR
OF EDUCATION WITH INFORMATION TECHNOLOGY**

MAIN CAMPUS

NGE 203: RESOURCES AND DEVELOPMENT

Date 21st February, 2018

Time: 12.00 - 3.00pm

INSTRUCTIONS:

- Answer Question ONE and any other TWO
- Sketch maps and diagrams should be used whenever appropriate

NGE 203 RESOURCES AND DEVELOPMENT

1. a) Explain the role of resources in development. (15 marks)
b) Critique the relevance of the concept of limits to growth in resource use and development. (15 marks)
2. "Degradation and loss of natural resources is anthropogenic". Discuss. (20 marks)
3. "Agricultural biotechnology is the best recipe for food insecurity in the developing countries". Discuss. (20 marks)
4. Examine the potential and challenges in tapping green energy in Kenya and suggest possible solutions. (20 marks)
5. "The existence of policy, institutional and legal frameworks is not sufficient in the use and development of natural resources in the developing countries". Discuss. (20 marks)
6. Discuss the environmental impact of resource use and development. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**SECOND YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF SCIENCE IN GEOGRAPHY AND
NATURAL RESOURCES MANAGEMENT WITH INFORMATION
TECHNOLOGY**

MAIN CAMPUS

NGE 204: INTRODUCTION TO GEOLOGY

Date: 14th February, 2018

Time: 12.00 - 3.00 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should be used whenever appropriate

NGE 204 INTRODUCTION TO GEOLOGY

1. a) Describe the Earth's spheres. (6 marks)
b) Outline the Earth's plate boundaries and describe their role in the formation of geological features. (12 marks)
c) Differentiate between mineral and rock and explain their economic significance. (12 marks)
2. Explain the absolute and relative dating methods of geological methods. (20 marks)
3. Citing examples, describe the formation of folding and faulting of Earth's structure. (20 marks)
4. Classify and describe sedimentary rocks. (20 marks)
5. Explain the role of exogenic process in the landscape development. (20 marks)
6. Citing examples, describe the formation of volcanic mountains. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**SECOND YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF SCIENCE IN GEOGRAPHY AND
NATURAL RESOURCES MANAGEMENT WITH INFORMATION
TECHNOLOGY**

MAIN CAMPUS

NGE 205: EAST AFRICAN ENVIRONMENTS

Date: 16th February, 2018

Time: 12.00 - 3.00 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should be used whenever appropriate

NGE 205 EAST AFRICAN ENVIRONMENTS

1. a) Describe the physiography of East Africa. (10 marks)
b) Distinguish between hazards and disasters and explain their effects in East Africa. (20 marks)
2. Discuss the impact of rapid population growth in East Africa. (20 marks)
3. Discuss the major challenges that face agricultural development in East Africa and suggest possible solutions. (20 marks)
4. Examine the key challenges faced in the management of transboundary resources in East Africa and suggest possible solutions. (20 marks)
5. Describe the modified climate of East Africa. (20 marks)
6. Assess the necessity of regional integration in East Africa. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**THIRD YEAR FIRST SEMESTER EXAMINATION FOR
THE DEGREE OF BACHELOR OF SCIENCE (GEOGRAPHY
AND NATURAL RESOURCES MANAGEMENT AND BACHELOR
OF EDUCATION WITH INFORMATION TECHNOLOGY**

MAIN CAMPUS

NGE 301: QUANTITATIVE METHODS

Date 20th February, 2018

Time: 3.30 - 6.30pm

INSTRUCTIONS:

- Answer Question ONE and any other TWO
- Sketch maps and diagrams should be used whenever appropriate

NGE 301 QUANTITATIVE METHODS

1. The data below show the number of bags of rice farmers obtained during harvesting period. Use it to answer the questions that follow.

Class	1-8	9-16	17-24	25-32	33-40
Frequency	15	12	7	5	1

- a) (i) Construct cumulative frequency curve of the above data. (6 marks)
- (ii) Use the curve to estimate quartile deviation. (6 marks)
- (iii) Compute Mean deviation and Standard deviation. (6 marks)
- b) Write explanatory notes on the following:
- (i) Measurement (4 marks)
- (ii) Normal Distribution (4 marks)
- (iii) Regression Analysis (4 marks)

2. A vendor who plans to start a restaurant seeks to know the factors that influence meals preference in Maseno University

- (a) Which sampling technique would be most appropriate for the survey. Explain your answer. (2 marks)
- (b) Explain how the technique in (a) above is conducted. (8 marks)
- (c) Explain the parameters to be considered for the survey. (6 marks)
- (d) Explain the strenghts and weaknesses of the technique in (a) above. (4 marks)

3. Nelson and Lioba scored the following marks in statistics tests. Use the data to

answer the following questions.

Nelson: 90, 82, 75, 81, 60, 70, 79, 83, 72, 70, 80, 80.

Lioba: 89, 85, 84, 72, 70, 78, 70, 80, 77, 78, 80, 81.

(a) Compare the means of their marks. (16 marks)

(b) Explain the weaknesses of the test in (a) above. (4 marks)

4. (a) Distinguish between hypothesis testing and test of hypothesis. (6 marks)

(b) Discuss the relevance of hypothesis testing in geography. (14 marks)

5. A study on the relationship between temperature and altitude using Pearson's product moment indicated a correlation coefficient of -0.96.

(a) Identify the dependent and independent variables. (2 marks)

(b) Compute the coefficient of determination. (2 marks)

(c) Interpret the result. (10 marks)

(d) Explain the assumptions of the technique used in the analysis. (6 marks)

6. Discuss the significance of quantitative techniques in geography. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**THIRD YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF SCIENCE IN GEOGRAPHY AND
NATURAL RESOURCES MANAGEMENT WITH INFORMATION
TECHNOLOGY**

MAIN CAMPUS

NGE 302: POPULATION GEOGRAPHY

Date: 12th February, 2018

Time: 12.00 - 3.00 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should used whenever appropriate

NGE 302 POPULATION GEOGRAPHY

1. a) Define Population Geography and explain its scope. (10 marks)
b) Explain the various methods of collecting population data in Kenya and outline their strengths and weaknesses. (20 marks)
2. Examine the relevance of the Theory of Demographic Transition in explaining demographic changes in developing countries. (20 marks)
3. Account for the changing trends in global fertility patterns. (20 marks)
4. Explain the strategies that can be adopted to lower mortality rates in Kenya. (20 marks)
5. Examine the migration typologies in sub Saharan Africa and explain the factors responsible for the phenomenon. (20 marks)
6. Critically analyze Kenya's population policy framework as espoused in Sessional Paper No. 3 of 2012 on the Population Policy for National Development. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**THIRD YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF SCIENCE IN GEOGRAPHY AND
NATURAL RESOURCES MANAGEMENT WITH INFORMATION
TECHNOLOGY**

MAIN CAMPUS

NGE 303: GEOGRAPHY OF KENYA

Date: 15th February, 2018

Time: 3.30 - 6.30 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should used whenever appropriate

NGE 303 GEOGRAPHY OF KENYA

1. a) "The international boundaries of Kenya are a product of colonialism".
Discuss. (15 marks)
b) Describe the physiography of Kenya. (15 marks)
2. Explain the formation of Rift Valley and associated features. (20 marks)
3. Account for the spatial distribution of population in Kenya. (20 marks)
4. Citing examples, explain some of the environmental impact of modern agricultural technologies in Kenya. (20 marks)
5. By use of clear examples, discuss measures undertaken by the Kenyan government to promote tourism. (20 marks)
6. Discuss the problems facing industrialization in Kenya and suggest possible solutions. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**THIRD YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF SCIENCE IN GEOGRAPHY AND
NATURAL RESOURCES MANAGEMENT WITH INFORMATION
TECHNOLOGY**

MAIN CAMPUS

NGE 304: ECONOMIC GEOGRAPHY

Date: 16th February, 2018

Time: 3.30 - 6.30 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should used whenever appropriate

NGE 304 ECONOMIC GEOGRAPHY

1. a) Outline the goal of economic geography as a sub-discipline. (3 marks)
b) Differentiate between economic-geographical and economics perspectives to understanding of the economy. (8 marks)
c) Explain the importance of human resource development. (9 marks)
d) Discuss any two (2) theories of underdevelopment. (10 marks)
2. a) Discuss the scope of economic geography. (5 marks)
b) Explain any five (5) factors causing increase in demand for goods and services. (15 marks)
3. Discuss any two approaches used in the study of economic geography. (20 marks)
4. Examine any four (4) theoretical perspectives in economic geography. (20 marks)
5. Define regional planning and discuss the importance of regional organizations and planning. (20 marks)
6. a) Outline the components of official assistance to developing and transition economies. (4 marks)
b) Write explanatory notes on the following:
 - (i) Autarky (3 marks)
 - (ii) Open economy (3 marks)
 - (iii) Foreign Aid Investment (5 marks)
 - (iv) Space, Place and Scale in economic geography (6 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**THIRD YEAR FIRST SEMESTER EXAMINATION FOR
THE DEGREE OF BACHELOR OF SCIENCE (GEOGRAPHY
AND NATURAL RESOURCES MANAGEMENT AND BACHELOR
OF EDUCATION WITH INFORMATION TECHNOLOGY**

MAIN CAMPUS

NGE 305: GEOGRAPHY OF ENERGY

Date 22nd February, 2018

Time: 3.30 - 6.30pm

INSTRUCTIONS:

- Answer Question ONE and any other TWO
- Sketch maps and diagrams should be used whenever appropriate

NGE 305 GEOGRAPHY OF ENERGY

1. Discuss the viability of renewable and non-renewable energy sources in the developing countries. (30 marks)
2. Examine the disparity in energy consumption in less developed countries. (20 marks)
3. Discuss the environmental impact of non-renewable energy sources. (20 marks)
4. Account for the global distribution of energy resources. (20 marks)
5. (a) Explain any five (5) significance of biomass. (10 marks)
(b) Examine any five (5) challenges in the production of biomass energy. (10 marks)
6. "Energy is directly linked to the key global challenges that the world faces". Discuss. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**THIRD YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF SCIENCE IN GEOGRAPHY AND
NATURAL RESOURCES MANAGEMENT WITH INFORMATION
TECHNOLOGY**

MAIN CAMPUS

NGE 306: SPATIAL DATABASE DEVELOPMENT

Date: 12th February, 2018

Time: 8.30 - 11.30 am

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should be used whenever appropriate

NGE 306 SPATIAL DATABASE DEVELOPMENT

1. a) Explain the following terms as applied in geographical database

management system.

(i) Metadata (3 marks)

(ii) Relational Schema (3 marks)

(iii) Geographical Information System (GIS) (3 marks)

(iv) StandardQuery Language (SQL) (3 marks)

b) Defferentiate between the following terminologies.

(i) Geometric Attributes and Thematic Attributes (4 marks)

(ii) Zero-dimensional object and One-dimensional object (4 marks)

(ii) Data Manipulation Language and Data Definition Language (4 marks)

c) Define Geographic Object and explain its two components. (6 marks)

2. Explain the security measures necessary in securing databases from losing

data. (20 marks)

3. a) Explain any three (3) basic methods of data input in GIS. (10 marks)

b) Discuss the advantages of Database Management System over File System.

(10 marks)

4. a) Define geocoding and explain its purpose. (4 marks)

b) Describe any four (4) types of Database Systems. (16 marks)

5. Discuss the emerging problems in the management of very large GIS database and suggest possible solutions. (20 marks)

6. Discuss how you would present spatial objects and their storage in databases. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**THIRD YEAR FIRST SEMESTER EXAMINATION FOR
THE DEGREE OF BACHELOR OF SCIENCE (GEOGRAPHY
AND NATURAL RESOURCES MANAGEMENT AND BACHELOR
OF EDUCATION WITH INFORMATION TECHNOLOGY**

MAIN CAMPUS

NGE 314:GIS PROJECT DEVELOPMENT AND PROCESS

Date 22nd February, 2018

Time: 8.30 - 11.30am

INSTRUCTIONS:

- Answer Question ONE and any other TWO
- Sketch maps and diagrams should be used whenever appropriate

NGE 314 GIS PROJECT DEVELOPMENT AND PROCESS

1. a) Examine three (3) approaches used in defining a GIS project. (6 marks)
b) Define GIS and explain its key elements. (6 marks)
c) Using a GIS project of your choice, explain the project phases you would use to accomplish it. (18 marks)
2. Discuss the possible sources and forms of errors in a GIS analysis project and explain how you would address them. (20 marks)
3. a) Examine the necessary steps for a GIS analysis project conceptualization. (15 marks)
b) Explain the advantages of using primary data over secondary data in a GIS analysis project. (5 marks)
4. a) Examine the causes of a GIS project failure. (10 marks)
b) Discuss the GIS project management tools associated with scheduling. (10 marks)
5. Using a specific GIS project, illustrate how you would translate criteria to analysis processes. (20 marks)
6. a) Discuss how different types of GIS models can be applied in a crime mapping project. (15 marks)
b) Explain the principles that guide the implementation of a GIS project. (5 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**FOURTH YEAR FIRST SEMESTER EXAMINATION FOR
THE DEGREE OF BACHELOR OF SCIENCE IN
GEOGRAPHY AND NATURAL RESOURCES MANAGEMENT
WITH INFORMATION TECHNOLOGY**

MAIN CAMPUS

NGE 401: FLUVIAL GEOMORPHOLOGY

Date: 2nd March, 2018

Time: 3.30 - 6.30pm

INSTRUCTIONS:

- Answer Question ONE and any other TWO
- Sketch maps and diagrams should be used whenever appropriate

NGE 401 FLUVIAL GEOMORPHOLOGY

1. (a) Examine the development of fluvial studies. (10 marks)
(b) Describe the process of run off generation. (10 marks)
(c) "All rivers go into the oceans but the oceans never get filled up". Discuss. (10 marks)
2. Define drainage basin and explain its significance in fluvial geomorphology. (20 marks)
3. Discuss quantitative analysis of channel networks. (20 marks)
4. Write explanatory notes on the following:
 - (a) Anastomosing and Anabranching channels (5 marks)
 - (b) Riffles and Pools (5 marks)
 - (c) Meanders and Ox-bow lakes (5 marks)
 - (d) Alluvial fans (5 marks)
5. Describe sediment entrainment and modes of fluvial transport. (20 marks)
6. Explain the formation of flood plains and discuss their roles in landform development. (20 marks)

MASENO UNIVERSITY

UNIVERSITY EXAMINATIONS 2017/2018

**FOURTH YEAR FIRST SEMESTER EXAMINATIONS FOR
THE DEGREE OF BACHELOR OF EDUCATION WITH
INFORMATION TECHNOLOGY**

CITY CAMPUS – SCHOOL BASED

NGE 402: ENVIRONMENTAL CONSERVATION

Date: 28th November, 2017

Time: 2.00 - 5.00 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should be used whenever appropriate

NGE 402 ENVIRONMENTAL CONSERVATION

1. a) Explain the main causes of biodiversity loss in developing countries. (10 marks)
b) Examine the role of the political component of the environment in environmental conservation in Kenya. (20 marks)
2. Discuss the measures that can be put in place to mitigate the effects of mining and mineral processing. (20 marks)
3. Examine the challenges faced in the management of water resources in Kenya. (20 marks)
4. Explain the factors contributing to the increase in global hazards. (20 marks)
5. Evaluate the effect of increased global energy consumption on the environment. (20 marks)
6. Discuss the relevance of the Sustainable Development Goals (SDGs) to environmental conservation in Kenya. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**FOURTH YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF SCIENCE IN GEOGRAPHY AND
NATURAL RESOURCES MANAGEMENT WITH INFORMATION
TECHNOLOGY**

MAIN CAMPUS

NGE 402: ENVIRONMENTAL CONSERVATION

Date: 14th February, 2018

Time: 3.30 - 6.30 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should used whenever appropriate

NGE 402 ENVIRONMENTAL CONSERVATION

1. a) "Social component of the environment is a hindrance to environmental conservation". Discuss. (20 marks)
b) Explain the factors leading to increased vulnerability to disasters in developing countries. (10 marks)
2. Justify the need for agricultural biotechnologies for the mitigation of food shortages in Africa. (20 marks)
3. Examine the challenges faced in the management of water resources in Kenya. (20 marks)
4. Explain the effects of poverty and population growth on the urban environment. (20 marks)
5. Explain the challenges faced in the production of hydroelectric power in sub-Saharan Africa. (20 marks)
6. Discuss the relevance of Kenya's National Environmental Management Authority to environmental conservation. (20 marks)

MASENO UNIVERSITY
UNIVERSITY EXAMINATIONS 2017/2018

**FOURTH YEAR FIRST SEMESTER EXAMINATIONS FOR THE
DEGREE OF BACHELOR OF SCIENCE IN GEOGRAPHY AND
NATURAL RESOURCES MANAGEMENT WITH INFORMATION
TECHNOLOGY**

MAIN CAMPUS

**NGE 403: INTERGRATED NATURAL RESOURCES
MANAGEMENT**

Date: 15th February, 2018

Time: 12.00 - 3.00 pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should used whenever appropriate

NGE 403 INTEGRATED NATURAL RESOURCES MANAGEMENT

1. (a) Explain the concept of Integrated Natural Resources Management (INRM). (10 marks)
(b) Discuss the guidelines for stakeholder analysis in INRM. (20 marks)
 2. Examine the relevance of land capacity assessment in INRM. (20 marks)
 3. "A central dimension in INRM is the way in which the natural resources interact within and among themselves". Discuss. (20 marks)
 4. Examine the relevance of ecosystems approach to INRM. (20 marks)
 5. Discuss conflict management process in INRM. (20 marks)
 6. Discuss the challenges facing natural resources management in the developing countries and suggest possible solutions. (20 marks)
-
-

MASENO UNIVERSITY

UNIVERSITY EXAMINATIONS 2017/2018

FOURTH YEAR FIRST SEMESTER EXAMINATIONS FOR THE DEGREE OF BACHELOR OF EDUCATION WITH INFORMATION TECHNOLOGY

CITY CAMPUS – SCHOOL BASED

NGE 404: ASAL RESOURCES MANAGEMENT

Date: 27th November, 2017

Time: 11.00 - 1.00pm

INSTRUCTIONS:

- Answer question ONE and any other TWO questions
- Sketch maps and diagrams should be used whenever appropriate

NGE 404 ASAL RESOURCES MANAGEMENT

1. a) Define aridity and explain its diversity. (10 marks)
b) Discuss the role of ASALs in socio-economic development. (20 marks)
2. "Natural factors are to blame for the occurrence of aridity". Discuss. (20 marks)
3. "Aeolian processes are responsible for sculpturing the ASAL landscape". Discuss. (20 marks)
4. Write explanatory notes on the following:
 - a) ASAL Drainage (5 marks)
 - b) Playas (5 marks)
 - c) Aridisols (5 marks)
 - d) Sand Dune (5 marks)
5. Discuss the role of technology in demystifying ASAL problems. (20 marks)
6. Examine the adaptive traits of ASAL biota. (20 marks)

MASENO UNIVERSITY
